# THE FUTURE FOR AAO-MQ RESEARCH DATA & SOFTWARE

Research Software

The team offers design and development services in the following areas:

- Astronomical data reduction algorithms and software
- Astronomical instrumentation control and monitoring software
- Telescope control software
- Astronomical user software
- Bespoke software solutions for research teams

AAO-MQ Data Central

The team offers the following data services:

- Full life-cycle data management for
  - Survey teams
  - Astronomical instruments
  - Observatories
- Research team facilitation software

Dr Katrina Sealey
AAO-MQ Head of Research Data and Software
